Broaden Your Network

IECA provides you with the opportunity to connect with colleagues, share ideas, and access learning locally through training events, newsletter updates, volunteer opportunities and networking.

Our organization is dedicated to partnering with individuals, businesses, universities, and organizations with a common goal of promoting erosion awareness and prevention. We work to incorporate practical, strategic solutions that prevent erosion, sedimentation, and stormwater damage.

Pictured Right: Ariel Leclerc, Northeast Chapter Rhode Island State Representative, poses with two professionals from Maine, Zach Lacasse and Dillon Shaw, during a Young Professionals Event in Spokane, Washington. The IECA Young Professionals Committee seeks to connect, develop and empower students and young professionals under the age of 35 to be successful in their industry careers.

Save the Date!

The MAC IECA and Northeast Chapters of IECA will be co-hosting their Annual Conference in Scranton, Pennsylvania, September 10 & 11, 2024.

Call for Abstracts - Submissions due by April 26th

Pictured Left: Dylan Drudul, CPESC, CESSWI, CBLP Mid-Atlantic & Northeast Regional Business Manager with Profile Products LLC awarded one of our own Northeast Chapter members, Mike Everhart, for his significant regional sales impact distributing Engineered Specified Products during the annual IECA conference in Spokane, Washington.

This award recognizes an individual's educational outreach efforts such as conducting lunch and learns focused on driving specifications and recommending ESP materials during the project design phase.

"I was honored to receive the Profile 2023 All Pro-Team award along with some really talented people. The annual conference was a big success. The presentation line-up and topics just keep getting better and better each year. It was great to see so many people from the Northeast attending and showing their support for the IECA. I am really excited for next year in Richmond, VA."

~ Mike Everhart
